## PRIVATE

### A Guide to Personal Collections in Australia and New Zealand

ARTAND is proud to announce that author Skadi Heckmueller will launch **PRIVATE** in Sydney and Melbourne this month. The book offers unprecedented access, insight and helpful tips for the visiting public and like-minded collectors.

From recognised museums like MONA and Heide to rarified collections such as Gibbs farm, Private shines a light on some of the most intriguing private art collections on public display across Australia and New Zealand.

Written by Skadi Heckmueller, who composed the widely successful German equivalent, the book canvasses key examples of the art found in each collection with a focus on the personal histories of the collectors behind the collections. It compliments these nuanced reflections with practical pointers, including recommendations for restaurants and cafes, important nearby sights and events, and detailed directions.
